

Technical Visit Volvo hybrid bus assembly factory, Borås

Thursday August 27th, 2020. Departure with Bus from Göteborg 9.00 AM, return time 3 PM.

Volvo Buses (Volvo Bus Corporation / formal name: Volvo Bussar AB) (stylized as VOLVO) is a subsidiary and a business area of the Swedish vehicle maker Volvo, which became an independent division in 1968. It is the world's largest bus manufacturer, with a complete range of heavy buses for passenger transportation. The product range includes complete buses and coaches as well as chassis combined with a comprehensive range of services. The bus operation has a global presence, with production in Europe, North and South America, Asia and Australia.

The visit will take place in the Borås assembly factory, which is a lower volume facility, compared to other more remotely located assembly factories.
